## PAYMENT RELATED

**Benefit Percentage** is the portion of covered expenses the plan pays after the deductible.

**Coinsurance** is the portion of covered expenses a covered person pays after the deductible.

**Coinsurance Out-of-Pocket Maximum** is the total amount of coinsurance a covered person is responsible to pay in a calendar year. The plan pays 100% of covered expenses after this limit is reached, except for copays. The family coinsurance out-of-pocket maximum is two times the individual maximum.

**Copay** is a fixed fee paid by a covered person each time for certain visits, services or benefits.

**Deductible** is the amount a covered person pays toward covered expenses before the plan pays benefits. The family deductible is two times the individual deductible.

**Family Deductible Accumulation** refers to the method for applying covered expenses to satisfy the family deductible. The plans provide a choice between an Individual/Family Deductible and One Deductible.

- **Individual/Family Deductible** is an accumulation method for a family deductible where expenses for all covered family members are applied to the family deductible. If a covered family member incurs expenses exceeding the single deductible amount, additional expenses for the individual are paid according to the group's plan. This is the most commonly used accumulation method in the industry.
- **One Deductible** is the accumulation method for a family deductible in which covered expenses for all covered family members are combined to satisfy the total deductible. The entire deductible must be satisfied before benefits are paid for any family member.

**First-Dollar** describes benefits paid by the plan that are not subject to the deductible, coinsurance or a copay.

**Maximum Allowable Amount** is the most the plan pays for services performed by providers. The negotiated rate is the maximum allowable amount paid to participating (network) providers. For nonparticipating (out-of-network) providers, the plan offers a choice for determining the maximum allowable amount.

- **Scheduled Network Option (SCH)** – This option uses the network fee schedule. It costs less than the UCR option but requires the covered person to pay more in out-of-pocket expenses for going out of the network.
- **Usual, Customary and Reasonable (UCR)** – This option uses charges by area providers to determine the maximum allowable amount. A covered person has less out-of-pocket expenses when going out of the network.

With either method, a covered person using a nonparticipating provider is responsible for any amount in excess of the maximum.

**Out-of-Network Charge** is an additional amount paid by a covered person who receives treatment from a nonparticipating provider (a provider that is not in the network).

- The out-of-network deductible is two times the network deductible, with a minimum of \$1,000.
- The out-of-network coinsurance amount is typically an additional 20% of charges.
- The out-of-network, coinsurance out-of-pocket maximum is two times the coinsurance out-of-pocket maximum.
- Copays for office and facility visits are not accepted at nonparticipating providers. Those charges are subject to the out-of-network deductible and out-of-network coinsurance.
- Out-of-network charges are applied to the network deductible and network coinsurance out-of-pocket maximum as well as the out-of-network deductible and coinsurance maximum.
- Charges are subject to the maximum allowable amount.

## MEDICAL SERVICE RELATED

**Emergency Care** covers treatment, services or supplies for an illness or injury that develops suddenly and unexpectedly, which if not treated immediately would place the covered person's life in jeopardy or cause serious bodily impairment.

**Health Care Practitioner** is a person licensed to treat an illness or injury and includes the services of doctors, surgeons, assistant surgeons, anesthesiologists, physician assistants and nurses.

**Medically Necessary Care** includes treatments, services or supplies which must be:

- appropriate and consistent with the diagnosis
- commonly accepted as proper treatment
- reasonably expected to result in improvement of the condition
- provided in the least intensive setting without affecting the quality of medical care provided.

**Office Visit** is a meeting with a healthcare practitioner that takes place in an office, an acute medical facility's outpatient department or a free-standing facility for evaluation, diagnosis and management of an illness or injury, or preventive services.

**Outpatient Physical Medicine Services** include physical, speech and occupational therapies, cardiac and pulmonary rehabilitation, chiropractic care and treatment for developmental delay.

**Primary Care Provider** is a general caregiver, commonly a physician who is a general or family practitioner, internist, pediatrician, obstetrician or gynecologist.

**Rx Preferred Pricing Card** provides a discounted rate for many outpatient prescriptions at network pharmacies. The Rx Preferred Pricing Card is not insurance.

**Urgent Care** covers treatment or services for an illness or injury that develops suddenly or unexpectedly outside of a health care practitioner's normal business hours that requires immediate treatment, but is not of sufficient severity to be considered emergency treatment.

**Plan Design\*** Unless otherwise noted, all deductibles, out-of-pocket expenses and benefit amounts are applied per person and are reset each January 1. Plans do not have a lifetime maximum.

# Important Provisions

## Employment Waiting Period

The employment waiting or affiliation period is the number of consecutive days an employee must be working before he/she is eligible to be covered. The following choices are available:

0 days 30 days 60 days 90 days 180 days

## Affiliated Provider Benefit

Assurant Health has PPO arrangements with local and national provider networks so you have convenience and choice. However, many times physicians and other health care providers such as radiologists, anesthesiologists, pathologists and emergency room personnel are affiliated with participating hospitals and clinics but are not members of the network. If care is received at a network facility from those nonparticipating providers, covered charges will be paid at the network benefit level. Though the plan pays a greater percentage of the charge, the covered person is responsible for any remaining balance.

## Emergency Care Benefit

PPO plans pay for emergency treatment at the network benefit level whether treatment is received from a participating or nonparticipating provider.

## Transplants

Benefits for kidney, cornea and skin transplants are the same as for any other illness. Benefits for other covered transplants (e.g., heart, bone marrow, liver) have no special limits at designated providers. In addition, \$10,000 is available for travel expenses for the covered person and a companion.

If services are performed at a network, nondesignated transplant provider, there is a \$100,000 lifetime benefit maximum per organ.

If services are performed at a nonparticipating, nondesignated transplant provider, in addition to the \$100,000 organ maximum, charges are subject to the out-of-network coinsurance percentage.

Donor expenses are limited to a maximum of \$10,000.

## Utilization Review

When inpatient treatment or outpatient surgery is needed, the covered person is responsible for calling Assurant Health to receive authorization. The toll-free telephone number appears on the insurance ID card. If authorization is not received, a penalty of 30% of the charge to a maximum of \$1,000 could be applied. No benefits are paid for transplants which are not authorized. Authorization is not a guarantee of coverage.

## Pre-Existing Condition

A pre-existing condition is a physical or mental condition, regardless of the cause, for which medical advice, diagnosis, care or treatment was recommended or received within the six-month period ending on the enrollment date.

Benefits are not paid for charges incurred due to a pre-existing condition until a covered person is continuously insured under the plan for 12 months, 18 months for late enrollees. This exclusion period can be reduced or eliminated if the covered person had prior creditable coverage. Those under age 19 are covered for pre-existing conditions.

## Takeover Provision

If Real Choices is replacing an existing group major medical plan which has been in force for 12 months, those employees covered by the prior plan receive base plan deductible credit and pre-existing conditions limitation credit.

## Continuity of Coverage

The pre-existing conditions limitation is reduced by the amount of time a person was covered under prior creditable coverage, provided there was no more than a 63-day gap between coverages (excluding any employment waiting/affiliation period).

# Exclusions Summary
