- competitive interest rates and investment options for your HSA funds
- the opportunity to earn Healthy Rewards dollars for your HSA (This feature is not included in all Lumenos HSA plans. Refer to your enrollment materials to determine if this feature is included in your plan.)

HSA Basics

Opening an HSA

You can open an HSA if you are enrolled in a Lumenos HSA plan, because it includes an HSA-compatible health plan. You cannot open an HSA if you have coverage under any other health plan that is not an HSA-compatible health plan, if you are enrolled in Medicare, or claimed as a dependent on another individual's tax return.

Contributing to your HSA

What's great about an HSA is that contributions to the account are federally tax-deductible. Contribution limits are set by the IRS and the U.S. Treasury, and include dollars you put into your account as well as amounts others, like your employer or other family members, contribute to your account. Any investment and interest earnings in your account are also federally tax-deferred. Depending on the state where you live, you may save on your state income tax as well.

Using your HSA funds

Money you use from your HSA to pay for qualified medical expenses is federally tax-free. If you use money for reasons other than qualified medical expenses prior to age 65, that money is taxable and subject to a 10% penalty.

This is not a complete list of the rules and requirements for HSAs. More info can be found on the online health site.
